SHOTA SHIIKU

PhD Researcher | Human–AI Interaction & Collective Intelligence | Software Engineer

Tokyo, Japan • shiiku419@gmail.com • shiiku.shota.19@shizuoka.ac.jp

RESEARCH PROFILE

PhD student at Shizuoka University investigating how human–AI interactions shape collective creativity, diversity, and group decision-making. Research experience includes large-scale behavioral experiments with human participants and language-model agents, computational approaches to collective behavior, and international collaboration with the Max Planck Institute for Empirical Aesthetics and Cornell University. Also a technical lead developing production generative-AI applications.

RESEARCH INTERESTS

Human–AI Interaction · Collective Intelligence · Computational Social Science · Cultural Transmission · Creativity and Diversity · Multi-Agent Systems · Group Decision-Making

EDUCATION

Doctor of Computer Science (in progress), Shizuoka University | ***Apr 2025 – present***

Advisor: Yugo Takeuchi | Research collaborator: Nori Jacoby (Cornell University)

Master of Informatics, Shizuoka University | ***Apr 2023 – Mar 2025***

Bachelor of Informatics, Shizuoka University | ***Apr 2019 – Mar 2023***

SELECTED PUBLICATIONS

1. S. Shiiku, R. Marjieh, T. L. Griffiths, M. Anglada-Tort, and N. Jacoby. “Hybrid Human–AI Societies Balance Creativity and Diversity.” Proceedings of the National Academy of Sciences (PNAS), 2026. Accepted.
2. S. Shiiku, R. Marjieh, M. Anglada-Tort, and N. Jacoby. “The Dynamics of Collective Creativity in Human-AI Hybrid Societies.” Proceedings of the Annual Meeting of the Cognitive Science Society (CogSci), 2025.
3. S. Shiiku and Y. Takeuchi. “Exploring the Mutual Adaptation of Large Language Models and Emergent Decision-Making in Simulated Small Group Interactions.” 12th International Conference on Human-Agent Interaction (HAI), 2024.
4. S. Shiiku and Y. Takeuchi. “Leveraging Emergent Opinion Dynamics in Small-Group Decision-Making: A Simulation-Based Examination of Creativity and Satisfaction.” Journal of Japan Society for Fuzzy Theory and Intelligent Informatics, 2025.

RESEARCH EXPERIENCE

Research Intern, Max Planck Institute for Empirical Aesthetics | ***Frankfurt, Germany*** | ***Apr–Jul 2024***

- Designed and conducted behavioral experiments with human participants and LLM agents in hybrid social networks.
- Built experimental infrastructure for studying collective creativity and diversity; sustained international research collaboration.

INDUSTRY EXPERIENCE

Software Engineer / Technical Lead, ExaWizards Inc. | ***Tokyo, Japan*** | ***Apr 2025 – present***

- Led 0→1 development of AI-powered HR products, spanning React/JavaScript, Django/Python, infrastructure, and production launches.
- Promoted to Technical Lead within six months; led a team of 2–4 engineers and owned technical architecture and reliability.
- Contributed to product roadmap and engineering decisions across customer, product, and technical requirements.

Software Engineer Intern, Metadata Inc. | ***Tokyo, Japan*** | ***Jul 2022 – Mar 2025***

- Developed full-stack product features and scalable data pipelines/search systems using JavaScript, Python, and Ruby.
- Supported mentoring and onboarding of engineers.

SELECTED HONORS & AWARDS

JSAI Annual Conference Award, Japanese Society for Artificial Intelligence, 2026 — “Collective Creativity in Human–AI Co-Creative Societies.”

Interactive Presentation Award, Interaction 2024 (IPSJ Symposium), Mar 2024 — “Cognitive Masking of Unpleasant Sounds through Acquired Self-Efficacy.”

TECHNICAL SKILLS

Research & AI: Multi-Agent Systems, Reinforcement Learning, Deep Learning, Behavioral Experimentation

Programming: Python, TypeScript, JavaScript, Go, Ruby, Kotlin | Frameworks: React, Django, Node.js, Ruby on Rails

Infrastructure: Docker, AWS | Languages: Japanese (native), English (professional fluency)
